

<Blantyre Arts Festival (1)>

【2nd October : Japanese Workshop and Exhibition】

The Embassy of Japan organized a half-day workshop at the Blantyre Arts Festival.

There were 25 participants, these included artists, students, and citizens. First, they folded planes, then balloons, baskets, colorful balls, cranes, lilies, and finally roses by rolling and cutting some papers.

Participants were all concentrating on folding Origami Papers. (Photo: a student writing his name after folding a lily.)

We heard some comments: “It was fun!” “You should do the workshop more often!” etc.

Later, some people also did a Japanese calligraphy.
