

## <Introduction of Japanese culture at Lilongwe Academy International School (19.Sep)>

The Japanese Embassy provided a one-hour Japanese cultural session for more than 60 grade 5 students at the Lilongwe Academy International School. Students first learned about Japan through a DVD and then learnt how to fold Japanese origami paper planes & boxes. Students were very interactive and were excited to learn origami.

Although students had a vague image about Japan in the beginning, they seemed more knowledgeable after watching the DVD.

What is more, they had lots of fun folding colorful origami papers!!

(The picture shows students displaying their planes.)
